The new STIHL MS 193 T

STIHL has good news for professionals who like to take things to new heights: the new STIHL MS 193 T has arrived! This tool is the perfect partner on tough tree maintenance jobs along roads or in parks and orchards. It combines superb performance with low weight and uncompromising user comfort. Its fuel-efficient 1.3 kW 2-MIX engine, compact design and sophisticated features such as the secured nut on the sprocket cover and fold-down carrying U-bolt guarantee that this tool will never let you down.

Arborist saws are specially designed for working among tree branches and should only be used by trained arborists.

**Always prepared to perform
at the highest level.**

Benefits

The MS 193 T ensures you maximum comfort – and minimum vibrations.

Powerful, clean and efficient

- 1 STIHL 2-MIX engine**
All the power, half the emissions: the economical STIHL 2-MIX engine combines a cylinder with efficient four-channel technology and a stratified charge system. That means the engine burns fuel flawlessly and delivers high torque over a wide rpm range. The engine also features up to 70 % fewer exhaust emissions and fuel consumption that's up to 20 % lower compared to STIHL two-stroke engines of the same performance class without 2-MIX technology.

Great handling

- 2 Secured nut**
It's now impossible to lose the sprocket cover nut when you're swapping cutting attachments, as it is attached to the sprocket cover itself.
- 3 Side-mounted chain tensioning**
The saw chain can be tightened effortlessly using the side-mounted chain tensioner while avoiding contact with the sharp saw chain.
- 4 Compact design and ergonomic handle position**
An easy-to-manage chain saw with a solid housing, this model has smooth surfaces, round contours and lean dimensions, which prevent the tool from snagging or getting caught on clothes or twigs. In addition, the ergonomic handle position allows you to manoeuvre the chain saw precisely and safely without unnecessary strain.
- 5 Fold-down carrying U-bolt**
The fold-down carrying U-bolt allows the chain saw to be lowered to the ground or attached to a safety rope. When retracted, the U-bolt won't interfere with your work or the storage of the tool.

Optimum handling

- 6 Professional anti-vibration system**
Steady as she goes: the anti-vibration system reduces handle vibration, making your work more accurate and the tool less tiring to operate.
- 7 Low-vibration, low-kickback $\frac{3}{8}$ " Picco Micro Mini 3 (PMM3) saw chain**

This low-vibration, half chisel chain manufactured with superb Swiss precision is designed to perfectly complement the chain saw. Narrower than other saw chains, it delivers impressively high cutting performance and a remarkably narrow kerf.

Overview of the STIHL MS 193 T

STIHL MS 193 T features

- STIHL 2-MIX engine
- Secured nut
- Side-mounted chain tensioning
- Compact design and ergonomic handle position
- Fold-down carrying U-bolt
- Professional anti-vibration system
- Low-vibration, low-kickback $\frac{3}{8}$ " Picco Micro Mini 3 (PMM3) saw chain
- Optional: $\frac{1}{4}$ " Picco Mini 3 (PM3)

STIHL MS 193 TC-E with ErgoStart

The manual fuel pump in combination with STIHL ErgoStart (E) floods the carburettor before starting and therefore reduces the number of pulls required on the starter rope, making starting even less strenuous. In addition, STIHL ErgoStart noticeably reduces the force required to start the engine.

	MS 193 T	MS 193 TC-E
Displacement (cm ³)	30.1	30.1

A perfect fit for the orchard.
 And in your hand.

Original STIHL saw chains: superior quality for peak performance

■ **Quality STIHL development:** STIHL is the only petrol chain saw manufacturer in the world that also develops its own saw chains and guide bars. This means that the three components are guaranteed to match each other perfectly.

■ **Quality STIHL production:** all our saw chains are manufactured with Swiss precision in our STIHL factory in Wil, Switzerland. They are made using special machines that have also been developed and manufactured by STIHL.

■ **Superior cutting performance:** STIHL saw chains not only deliver outstanding cutting performance on STIHL chain saws, but are also excellent on chain saws from other manufacturers.
